AI Agent Fallback Flow

Out-of-Flow Patient Questions

Trigger

When the patient asks a question that is outside the AI agent’s defined flow or available information.

Agent Response

> “Sure, I understand. To explain the complete process clearly and answer all your questions, I can arrange a call with our senior caller. They will speak with you directly and explain everything in detail.
>
> Thank you for your time. Have a great day.”

Action

→ Mark the lead as Interest - JSON Response.

→ End the AI call politely.

Fallback Flow Summary

Step	Flow
1	Patient asks a question outside the defined AI flow.
2	AI provides the fallback response and offers senior-caller assistance.
3	Mark the lead as Interest - JSON Response.
4	End the AI call politely.
